What is the Deltek University Costpoint Certification Program?

The Deltek University Vision Certification Program provides an opportunity for Deltek clients, partners and employees to enhance their current Vision system knowledge, and use Deltek tools to allow them to grow their skills and remain competitive in the workforce.

The Deltek Professional Vision Master Certification Exam validates skills within the Vision product suite. Successful completion of the Certification exam is required to receive the Professional Certification.

What does the Certification Mean?

A candidate who passes the Deltek Vision Master Certification exam has demonstrated proficiency within multiple areas of Deltek Vision. To receive Deltek Vision Certification, you must pass the knowledge based exam.

Benefits to individuals include:

✓ Improved use of current systems
✓ Valuable experience and confidence
✓ Proof of skills and differentiator employers are looking for in the hiring process

Benefits to employers include:

✓ Better return on system investment and employee satisfaction
✓ Process improvements and efficiency
✓ Ability to identify qualified employment candidates and ensure their users have a certain level of knowledge

Preparing for the Exams

Training is not required to be certified. Passing the exam confirms you have practical application knowledge required to be a Deltek Vision.
Requirements

Knowledge Based Exam
This is a 150 question exam comprised of multiple choice questions to test your knowledge of Vision. This exam is randomly generated and provided via the Deltek Learning Zone.

Conditions
No written or online reference materials may be used during the exam.

The exams are taken online via the Deltek Learning Zone. Access to the exam is included for all users who have a subscription to use the Deltek Learning Zone. If you are not a subscribed customer, the course can be requested and purchased by following the steps shown on the screen. The exam must be completed in a single session of up to 120 minutes, with up to two attempts to successfully pass the exam.

Terms and Conditions
Following the purchase (if applicable) and launch of the exam, you must read and accept the Deltek Certification Program Terms and Conditions.

Maintaining Deltek Costpoint Certification
Certification will be valid for up to 2-years and can be renewed by passing the New Release exam. The exam will be available at least 90-days following the release of new Vision training series by Deltek.

Recommended Training or Background
All questions in the exam are tied to training series found on the DLZ; this includes all training types, such as, Virtual Live Classes (VLC), Recorded Sessions (RS), Self-Paced Learning (SPL), Click Guides (CG), Infographics (IF), and Quick Reference Guides (QRG). The following series are recommended. Go to the Deltek Learning Zone (Deltek.com\Learn) for more information on the certification program, Vision courses, and how to register.

- Vision Accounting and Accounts Payable Processing Series
- Vision CRM
- Vision Billing Processing Series
- Vision Time Processing Series
- Vision Expense Series
- Vision Project Planning and Resource Management Series
- Vision Standard Reporting Series
- Vision User Fundamentals Series
- Vision Security Series
- Vision for Project Manager Series
Study Suggestions:

You will need knowledge in all areas of Vision to pass the exam. Use your knowledge from work, co-workers, Deltek University’s Vision Series trainings, and Knowledge Base Articles. Here are some suggestions of areas to study that will help with taking the exam. While this is not a complete list, use it as a springboard into your studies.

Accounting and Accounts Payable

Focus on:
You need a strong understanding of AP processing, AP configuration and reporting, period setup, closing periods, creating new periods and accounting related reporting. Also, knowledge of processing vendor AP checks, EFTs, voiding vendor invoices and payments, general setup and usage of Multi-company, Multi-currency, Revenue Generation, adjust salary job cost, Labor Cross Charge, Overhead allocation, Organizational setup, and consultant accruals, as well as a complete understanding of the setup options and abilities that control these areas and related organizational reporting and financial reports.

Vision for Project Manager

Focus on:
You need an understanding of security settings needed to gain access to the information needed as a project manager; Info Centers including Leads, Contacts, Opportunities and Projects; Core reporting functionality using searches, layout, column selection and options to design reports (AR Aged, Unbilled Detail & Aging, Project Earnings, Project Progress and Top/Bottom performers) specific to project manager’s needs.

Also, knowledge of how to set up personalized User Options, locate important information in Vision using Lookups and List View, create custom fields and dropdown values for tracking data unique to your company, keep track alerts that can inform the status of your clients, projects, budgets and/or opportunities, utilize project templates to save time, create/analyze/compare budgets. You will also need to understand Vision’s mobile tools and be able to access existing data, synchronize newly added data with Vision core, and enter Project Plan data in iAccess without the use of the Project Planning module.
