

# Dela Smart Summary

Dela is Deltek's AI-powered business companion that helps make project work smarter and easier. Dela isn't just one specific feature - it's more an umbrella of AI capabilities woven throughout Deltek's product portfolio that helps firms save time and make better decisions by generating smart content, predicting success, and enabling intelligent exploration and automation.

## Smart Summaries

### What Is It?

The **Smart Summary** feature generates an executive summary from a record. This is a natural language, generative AI based summary that includes all key pieces of information and metrics. Today, Costpoint supports **Contract**, **Vendor**, and **Customer** Smart Summaries.

### How Do I Use It?

It's simple. Go to the desired application (Manage Contracts, Manage Vendors, or Manage Customers) and open it in Form view. Click the **Smart Summary** button.
