# Deltek Acumen - DLZ Starter Guide

**Deltek.**

| Asset Name | Description | Role |
|---|---|---|
| Acumen Fuse Product Overview Series: New Features and Enhancements v8.4 - Starter Guide | This covers the latest in Acumen 8.4, including updates in Risk Analysis calculations and Logic Sensitivity labels, additional features such as the Physical % Complete Field and User Pool Manager, the list of new TimePhase fields, and importing multiple Project Server projects into a single project.<br><br>[Keywords and Related Searches - guide, reference, new version, risk analysis, fiscal calendar, project server import, multiple project server, server request, calculated fields, physical % field, physical percent field, user pool manager, mentor messages, timephase field, logic sensitivity, UNCEFACT import, performance improvement, EVAS metrics enhancements] | Project Manager,Scheduler,Claims Analyst,Control Account Manager |
| Acumen Fuse Product Overview Series: New Features and Enhancements v8.3 - Starter Guide | This covers the new and enhanced features for the Acumen 8.3 release, including the changes on Merge Metric Templates, Metric Folders and Variables, the updates on Import Cost Data from a CSV file, the enhancements for Risk Driver and FUSE Detail Reports, and information for Usability improvements.<br><br>[Keywords and Related Searches - guide, reference, new version, merge metric template, variables, import cost data from a csv file, risk driver report, fuse detail report, usability enhancements] | Project Manager,Scheduler,Claims Analyst,Control Account Manager |
| Acumen Fuse Product Overview Series: New Features and Enhancements v8.6 - Starter Guide | This covers the new features and enhancements of Acumen 8.6, including the new IPMDR and its settings, updates to the Dialog Box Options and the Cost Model, and the different enhancements for export, metrics, configuration files and the Microsoft platform.<br><br>[Keywords and Related Searches - guide, reference, new version, Integrated Program Management Data Report, IPMDR, CSV Format, risk register, risk mappings, risk impacts, UN/CEFACT, fuse metric validation report, metrics, cost format import, microsof platform enhancements, fuse.exe.config, navigation] | Project Manager,Scheduler,Claims Analyst,Control Account Manager |
| Acumen Fuse Product Overview Series: New Features and Enhancements v8.5 - Starter Guide | This covers the new features and enhancements of Acumen 8.5, including the updates to EVAS/DECM metrics, the addition of new columns for Primavera P6 baseline projects, and enhancements for Accelerate Schedule, S//2 Diagnostics and S//2 Logic Tab, and the Options dialog box.<br><br>[Keywords and Related Searches - guide, reference, new version, EVAS, DECM, metrics, 360 metrics, accelerate schedule, options dialog box, project server update, accelerated fields, project loading, field mapping, mentor, loading cost data, baseline project time now, baseline wbs code fields, fields tab, diagnostics tab, fuse metric report, logic tab] | Project Manager,Scheduler,Claims Analyst,Control Account Manager |
| Acumen Fuse Product Overview: Features and Navigation - Starter Guide | This covers the introduction to the features and navigation of Deltek Acumen Fuse, setting up the tools, project diagnostics features, workbook structure and construction, and the data organization tools. [Keywords and Related Searches - guide, reference, acumen fuse navigation, tool setup, project diagnostics, schedule maturity, reporting, project metric types, data organization] | Project Manager,Scheduler,Claims Analyst,Control Account Manager |
| Acumen Risk Product Overview: Features and Navigation - Starter Guide | This covers the introduction to the features and navigation of Deltek Acumen Risk, the basics of Risk Analysis and its importance, the Schedule Risk Analysis process, Analysis components, schedule cleansing, and schedule quality check. [Keywords and Related Searches - guide, reference, acumen risk navigation, workbook setup, risk model assembly, risk modeling, terminology, schedule] | Project Manager,Scheduler,Risk Analyst,Control Account Manager |

# Deltek Acumen - DLZ Standard

| Asset Name | Description | Role |
|---|---|---|
| Acumen Fuse Product Overview Series: Introduction, Overview and Navigation - Virtual Live Class | In this 1.5-hour course, you will learn the terminology, definitions and metrics prominent in Acumen Fuse, to effectively navigate its basic capability and tools, about the Work Book setup and structure, specialized Imports, managing Groupings, and how to use output results as applied to projects including basic schedule or cost quality and performance. This course is part of the Fuse Fundamentals Series.<br><br>[Keywords and Related Searches - instructor led class, training, overview and tool setup, workbook structure and construction, data organization, acumen products, schedule maturity model, project diagnostics, project metrics, schedule, cost, performance, earned value, risk, reporting, proven correlation, user interface, workbook management, platform, managing and viewing workbook content, snapshot, primavera, specialized imports, workbook construction, xer files, data organization] | Project Manager,Scheduler,Claims Analyst,Control Account Manager |
| Acumen Fuse Reports and Graphics Series: Fundamental Reporting and Graphics - Virtual Live Class | In this 1.5-hour course, you will learn to create the Analyst Report and the Executive Briefing Report, to produce reliable output text and graphic results reports, about the many types of graphical views used in S2 diagnostics and the Acumen Dashboard with its many widgets, and to create a custom dashboard view with an Analytical widget. This course is part of the Fuse Fundamentals Series.<br><br>[Keywords and Related Searches - instructor led class, training, reporting, analyst report, executive briefing report, graphics, graphical view, s2 diagnostics, widgets, dashboard, analytics, standard reports, ms word, pdf, template, activity export, print preview, intersection charts] | Project Manager,Scheduler,Claims Analyst,Control Account Manager |
| Acumen Fuse Logic Tracing Series: Logic Analysis and Logic Trace - Virtual Live Class | In this 2-hour course, you will learn to identify each of the functions of the Logic Analysis tab, the options for Logic Sensitivity, the process of Logic Trace and Analysis, and to create a custom dashboard view with the Logic widget. This course is part of the Fuse Fundamentals Series.<br><br>[Keywords and Related Searches - instructor led class, training, logic analysis, logic sensitivity, logic trace, dashboard view, logic widget, logic checks, characteristics, leads, lags, create scenario] | Project Manager,Scheduler,Claims Analyst,Control Account Manager |

# Deltek Acumen - DLZ Standard

| Asset Name | Description | Role |
|---|---|---|
| Acumen Fuse Logic Tracing Series: Forensics - Virtual Live Class | In this 2-hour course, you will learn the forensics that significantly augment Acumen analysis and presentation capabilities, about each of the Forensic Checks and Variance Analysis available in Acumen and how to run and apply them, the process of Field Mapping, to set up Custom mapping, and to create a custom dashboard view with the Forensics widget. This course is part of the Fuse Logic Tracing Series.<br><br>[Keywords and Related Searches - instructor led class, training, forensics analysis, forensic checks, variance analysis, dashboard view, forensics widget, field mapping, custom mapping, activity variances, smartgantt filter, forensic wizard, calendars, activity status, field import template] | Scheduler,Claims Analyst,Control Account Manager |
| Acumen Fuse Metrics Series: Fundamental Metrics - Virtual Live Class | In this 1.5-hour course, you will learn to create and modify existing components of a basic Metric Template, set the metric weighting, and create and save a sample Metric Template. This course is part of the Fuse Fundamentals Series.<br><br>[Keywords and Related Searches - instructor led class, training, basic metrics, metric weighting, metric template, create metric groups, activity metrics, control account metrics, work package metrics, primary formula, secondary formula, tripwire formula, tripwire threshold, inclusions, filters, metric based scoring] | Project Manager,Scheduler,Claims Analyst,Control Account Manager |
| Acumen Fuse Schedule Acceleration and Recovery Series: Scenario Creation - Virtual Live Class | In this 1.5-hour course, you will learn the characteristics of a scenario vs. an imported file, what can be cleansed in a schedule, to create a cleansed scenario, and to export scenarios to different platforms. This course is part of the Fuse Fundamentals Series.<br><br>[Keywords and Related Searches - instructor led class, training, schedule cleansing, scenario export, project, snapshot, p6, xer, un/cefact, redundant logic, leads, predecessor lags, links, summaries] | Project Manager,Scheduler,Claims Analyst,Control Account Manager |
| Acumen Fuse Reports and Graphics Series: Advanced Playlists - Virtual Live Class | In this 2-hour course, you will learn about the Advanced Metric Views such as Definition of Baseline Compliance, DCMA, Earned Value, and Risk Metric Views, and to use the Control Account and Work Package Metrics Views. This course is part of the Fuse Advanced Series.<br><br>[Keywords and Related Searches - instructor led class, training, advanced metric views, baseline compliance, dcma, earned value, risk metric views, control account, work package metric views, specialized views, risk inputs, risk exposure] | Project Manager,Scheduler,Claims Analyst,Control Account Manager |

# Deltek Acumen - DLZ Standard

| Asset Name | Description | Role |
|---|---|---|
| Acumen Fuse Reports and Graphics Series: Advanced Reporting and Graphics - Virtual Live Class | In this 2-hour course, you will learn about the Custom Report API, to create the Fuse Summary Metric Report and Analytics Report, and to create Graphics from the Control Account/Work Package Metrics. This course is part of the Fuse Advanced Series.<br><br>[Keywords and Related Searches - instructor led class, training, custom report, api, metric report, control account, work package metrics, fuse summary metric report, evas] | Project Manager,Scheduler,Claims Analyst,Control Account Manager |
| Acumen Fuse Metrics Series: Advanced Metrics - Virtual Live Class | In this 2-hour course, you will learn to create and modify an Existing Advanced Metric, use Metric and Project Variables, set the metric weighting, and create and save a sample Metric Template. This course is part of the Fuse Advanced Series.<br><br>[Keywords and Related Searches - instructor led class, training, metric variables, project, metric template, primary formula, secondary formula, tripwire formula, tripwire threshold, inclusions, filters, metric based scoring] | Project Manager,Scheduler,Claims Analyst,Control Account Manager |
| Acumen Fuse Schedule Acceleration and Recovery Series: Schedule Acceleration and Recovery - Virtual Live Class | In this 1.5-hour course, you will learn to create a Customized Acceleration Script, compare the Scenarios in Diagnostics and Forensics, to Accelerate and Decelerate a Schedule, and the use of the Schedule Realism Advisor.<br><br>[Keywords and Related Searches - instructor led class, training, targeted acceleration, acceleration script, diagnostics, forensics, accelerate, decelerate, schedule realism advisor, 360, goal, cpm simulation, critical path] | Project Manager,Scheduler,Claims Analyst,Control Account Manager |
| Acumen Risk Product Overview Series: Introduction, Overview and Navigation - Virtual Live Class | In this 2-hour course, you will learn the terminology, definitions and the basic requirements for the Risk Model, how to prepare a schedule by considering the key Schedule Characteristics, and how to perform a Schedule Cleanse. This course is part of the Risk Fundamentals Series.<br><br>[Keywords and Related Searches - instructor led class, training, basic requirements, risk, risk model, risk analysis methodology, risk tool navigation, schedule preparation, key schedule characteristics, schedule cleanse, schedule maturity model, acumen suite of software, assembly process, uncertainty, risk events, drivers, mitigation, project risk registers] | Project Manager,Scheduler,Risk Analyst,Control Account Manager |

# Deltek Acumen - DLZ Standard

| Asset Name | Description | Role |
|---|---|---|
| Acumen Risk Event Identification and Mapping Series: Uncertainty Ranging and Optional Modelling - Virtual Live Class | In this 2-hour class, you will learn about Duration Uncertainty, to set up an Uncertainty Template, apply Uncertainty Ranges, about Task Existence and Cause/Effect Correlation, Central Limit Theorem and its uses. This course is part of the Risk Fundamentals Series.<br><br>[Keywords and Related Searches - instructor led class, training, duration uncertainty, uncertainty template, ranges, task existence, cause and effect correlation, clt, central limit theorem, optional modeling, estimate, maturity, performance, critical path, uncertainty factor, level, viewing uncertainty] | Project Manager,Scheduler,Risk Analyst,Control Account Manager |
| Acumen Risk Event Identification and Mapping Series: Risk Events - Virtual Live Class | In this 2-hour course, you will learn the types of Risk Events, to populate the Risk Register, to identify the probability and impact of Risk Events, and about Manual and Automatic Mapping. This course is part of the Risk Analysis and Reports Series.<br><br>[Keywords and Related Searches - instructor led class, training, risk register, risk mapping, probability, manual mapping, automatic mapping, risk matrix, custom fields] | Project Manager,Scheduler,Risk Analyst,Control Account Manager |
| Acumen Risk Analysis and Reports Series: Risk Analysis - Virtual Live Class | In this 2-hour course, you will learn the 3 main areas of Risk Analysis, the difference between Vulnerable Activities and Risk Drivers, Risk Analysis Comparison, Risk Exposure Comparison, and Risk Contribution Comparison. This course is part of the Risk Analysis and Reports Series.<br><br>[Keywords and Related Searches - instructor led class, training, exposure, analysis options, results, risk contribution, vulnerable activities, risk drivers, risk exposure comparison, risk contribution comparison, p value, correlation statistic] | Project Manager,Scheduler,Risk Analyst,Control Account Manager |
| Acumen Risk Analysis and Reports: Risk Mitigation - Virtual Live Class | In this 2-hour course, you will learn to evaluate the top risk events for possible Risk Mitigation, the Risk Mitigation process, to set up scenarios for cost/benefit analysis, to populate the Risk Register with Mitigation, about the Mitigation Benefit Analysis, and to evaluate the Mitigation Benefit. This course is part of the Risk Fundamentals Series.<br><br>[Keywords and Related Searches - instructor led class, training, scenario creation, mitigation benefit analysis, mitigation setup] | Project Manager,Scheduler,Risk Analyst,Control Account Manager |
| Acumen Risk Analysis and Reports Series: Cost Risk Analysis - Virtual Live Class | In this 2-hour course, you will learn the Cost Risk Analysis process, how time is accounted for, to differentiate between Base Cost Uncertainty, identify Cost Risk Events, and to run a Cost Risk Analysis. This course is part of the Risk Fundamentals Series.<br><br>[Keywords and Related Searches - instructor led class, training, base cost uncertainty, time overlay, cost risk events, cost risk analysis, slider set, top-down methodology, doughnut chart, export /import values, schedule impact, analysis results] | Project Manager,Scheduler,Risk Analyst,Control Account Manager |

# Deltek Acumen - DLZ Standard

| Asset Name | Description | Role |
|---|---|---|
| Acumen Risk Analysis and Reports Series: Risk Analysis Outputs - Virtual Live Class | In this 2-hour course, you will learn to perform an analysis of Risk results in Fuse, about the Risk Sensitivity Analysis, the Joint Confidence Level Analysis and Critical Schedule Driver Analysis, to produce the Risk Analysis graphics, to publish the Risk Executive Briefing, and to assemble a Risk analysis results report. This course is part of the Risk Fundamentals Series.<br><br>[Keywords and Related Searches - instructor led class, training, risk sensitivity analysis, joint confidence level analysis, critical schedule driver, reports, publish images, risk executive briefing, risk adjusted schedules, fuse tabs, scatter chart] | Project Manager,Scheduler,Risk Analyst,Control Account Manager |
| Acumen Fuse Reports and Graphics Series: Project Views and Benchmarking - Virtual Live Class | In this 2-hour course, you will learn to customize the Timeline View, construct and apply SmartGantt Filters, identify and customize SmartGantt View, and the set-up of Benchmark Schedule Quality Score against the Acumen Cloud, the Benchmark Logic Quality Score against the Acumen Cloud and Benchmark against a Specific Industry or All Results. This course is part of the Fuse Project Views and Benchmarking Series.<br><br>[Keywords and Related Searches - instructor led class, training, advanced project views, customize timeline view, smartgantt view, filters, schedule quality, acumen cloud, logic quality score, benchmarking, global comparison, schedule index] | Project Manager,Scheduler,Control Account Manager |
| Acumen Fuse Logic Tracing Series: Basic Diagnostics - Virtual Live Class | In this 2-hour course, you will learn the functions of the analyzers in S2 Diagnostics, about the Comparison and Trend Analysis tools to aid in producing accurate information for all of projects and reports, to create Custom Metric/Ribbon views in Diagnostics, compare the Activity Browser's view options, and set Exclusions and Annotations. This course is part of the Fuse Fundamentals Series.<br><br>[Keywords and Related Searches - instructor led class, training, analyzers, scoring, comparison analysis, trend analysis, metric views, ribbon views, ribbon analyzer engine rules, field grouping, hierarchy grouping, phase analyzer, intersection analyzer, activity browser, view options, exclusion and notes] | Project Manager,Scheduler,Claims Analyst,Control Account Manager |
| Acumen Touchstone Product Overview Series: Introduction, Overview and Navigation - Learning Video | In this 0.5-hour course, you will learn the different user licenses that can access Acumen Touchstone, and the multiple features of Acumen Touchstone. This course is part of the Touchstone Product Overview Series.<br><br>[Keywords and Related Searches - training videos, interface, hubs, templates, purpose, settings, preferences, users, navigation, program, project, submittal, field mapping, acceptance criteria, benchmark attributes, metrics] | System Administrator,Project Manager,Submitter |

# Deltek Acumen - DLZ Standard

**Deltek.**

| Asset Name | Description | Role |
|---|---|---|
| Acumen Touchstone Project Setup and Management Series: Field Mappings - Learning Video | In this 0.5-hour course, you will learn to create and modify field mappings, and the use of field mappings templates to enable custom metrics. This course is part of the Touchstone Project Setup and Management Series.<br><br>[Keywords and Related Searches - training videos, creating field mapping, modifying field mapping, custom metrics, field mapping templates] | Project Manager |
| Acumen Touchstone System Administration Series: EPM Security Administrator - Learning Video | In this 0.5-hour course, you will learn to create the different roles, groups, and users, and the granting of the named user and submitter only license in Acumen Touchstone. This course is part of the Touchstone System Administration Series.<br><br>[Keywords and Related Searches - training videos, users, roles, groups, licenses, named user license, submitter only license, access, licensing] | System Administrator |
| Acumen Touchstone Project Setup and Management Series: Programs and Projects - Learning Video | In this 0.5-hour course, you will learn to create a program and a project, and how to grant access of programs and projects to users. This course is part of the Touchstone Project Setup and Management Series.<br><br>[Keywords and Related Searches - training videos, creating a program, creating a project, access control, users] | Project Manager |
| Acumen Touchstone Project Setup and Management Series: Acceptance Criteria - Learning Video | In this 0.5-hour course, you will learn the different options for scoring metrics, adding acceptance criteria templates, and using the different actions to copy, delete, and make a new acceptance criteria template. This course is part of the Touchstone Fundamentals Series. [Keywords and Related Searches - training videos, scoring metrics, acceptance criteria templates, copy template, delete template, new template, metric scoring] | Project Manager |
| Acumen Touchstone Project Setup and Management Series: Settings - Learning Video | In this 0.5-hour course, you will learn the different options within Acumen Touchstone to customize the benchmark attributes and acceptance criteria metrics used by the various programs and projects. This course is part of the Touchstone Project Setup and Management Series.<br><br>[Keywords and Related Searches - training videos, customize, benchmark attributes, acceptance criteria, metrics, programs, projects] | Project Manager |
| Acumen Touchstone Project Setup and Management Series: Submittals - Learning Video | In this 0.5-hour course, you will learn to submit a baseline schedule, a status update, and a missed period, and set the benchmark attributes. This course is part of the Touchstone Project Setup and Management Series.<br><br>[Keywords and Related Searches - training videos, submitting a baseline, submitting a status update, submitting a missed period, benchmark attributes, submitter only, schedule] | Project Manager,Submitter |

# Deltek Acumen - DLZ Standard

| Asset Name | Description | Role |
|---|---|---|
| Acumen Fuse Logic Tracing Series: Logic Analysis and Logic Trace - Recorded Session | In this 2.5-hour course, you will learn to identify each of the functions of the Logic Analysis tab, the options for Logic Sensitivity, the process of Logic Trace and Analysis, and to create a custom dashboard view with the Logic widget. This course is part of the Fuse Logic Tracing Series.<br><br>[Keywords and Related Searches - training videos, logic analysis, logic sensitivity, logic trace, dashboard view, logic widget, logic checks, characteristics, leads, lags, create scenario] | Scheduler,Claims Analyst,Control Account Manager |
| Acumen Fuse Product Overview Series: Introduction, Overview and Navigation - Recorded Session | In this 2-hour course, you will learn the terminology, definitions and metrics prominent in Acumen Fuse, to effectively navigate its basic capability and tools, about the Work Book setup and structure, specialized Imports, managing Groupings, and how to use output results as applied to projects including basic schedule or cost quality and performance. | Acumen Certification Exam | The Deltek Professional Acumen Certification Exam validates skills within the Acumen product suite. Successful completion of the Certification exam is required to receive the Professional Certification. Training is not required to be certified. Passing the exams confirms you have practical application knowledge required to be a Deltek Acumen Certified User. If you do not have access to the Read & Sign document, use the alternate entry form here: https://education.deltek.com/web/dlz_request_form/product_certification/ If you are using alternate access, there will be a fee associated with the Certification Exam. After paying the fee, you will receive an email with information on accessing the Certification Exam.
