

Calculate Automatic Overtime

Timesheet Classes Time Controls	Timesheet Timesheets	Export Timesheets Timesheet Interfaces
<ul style="list-style-type: none"> The Overtime Options section was moved to the Overtime Hours Rules tab, and a new Calculate on Save option was added. The new option is selected by default but can be cleared if Overtime Handling is selected as Calculate. When automatic overtime calculation is implemented, you can now also configure: <ul style="list-style-type: none"> Overtime rules for Saturdays and Sundays even if 7th Consecutive Day is enabled. Weekly and daily overtime hours limits per timesheet class. 	<ul style="list-style-type: none"> The Pay Type subtask displays a summary of hours automatically calculated as overtime by pay type. Automatic calculation and distribution of overtime occurs when the timesheet is saved. Automatic overtime calculation allows all daily rules, such as weekend and 7th Day Consecutive rules, to exist together using a hierarchy for the calculation. 	<p>Export Timesheets was updated so that calculated overtime is available for export after timesheets are approved.</p>
